

**Iron Springs Elementary School  
Community Council Meeting Minutes  
November 2, 2016**

Members Present: Nathan Jenkins, Cheri Mitchell, Martene Barker, Laura Albrecht, Janene Hall

Agenda Items:

Positions on the council were unanimously determined as follows: Chairperson – Martene Barker, Vice-Chair – Brittany Hoyt, Secretary – Laura Albrecht.

The council reviewed the School Trust Land Budget for 2015-16. Members asked Mr. Jenkins clarifying questions and all feel great about the budget and use of funds, based on the decisions made by the council last year.

Technology protection/safety plan was discussed. The district has good firewall in place and is also working to put in place a program where teachers can visually monitor student history on the teacher's computer screen. Starting next year, the librarian will teach computer safety to students on a weekly basis, following a curriculum the district is working on.

The council reviewed the SNAP map. It is the same as last year.

Mrs. Reynolds shared the reading achievement plan. This led into a discussion about the school's new program called GEM time. Mr. Jenkins would like the council to come and observe the role Mrs. Periera plays in the GEM program, as well as a group being taught during this time. The arrangements will be made at our next meeting.

The training video is posted on the school website and members of the council will be asked to watch the video at their convenience and report back when they have done so.

Estimated funding for the School Improvement Plan or School Trust Land Plan for the 2016-17 school year will be made following the election, once voters have voted on the proposition that could greatly affect funding.

The Meeting was adjourned at 4:30.
